THE CAMPS THAT FEEL LIKE HOME

SUMMER CAMPS DESIGNED FOR CHILDHOOD

When all needs are provided and nourished, the child thrives and a brain develops in the most healthy ways.

Due to the extremely rapid growth in the **early years**, the brains of babies, toddlers and preschool children **are especially vulnerable to and are significantly impacted by their environment and the people in it.**

Their **physical and mental health**, preparation for **learning** and their all important **belief in their worth**, is wiring in their incredibly rapidly developing brain now.

EARLY CHILDHOOD EXPERIENCES MATTER

CHILDHOOD DESERVES
REQUIRES
EXPECTS LOVE...

... and safety, security, loving experiences, care-giver responsiveness, adequate amounts of sleep, health nutrition, a lack of chaos and safe opportunities to learn through movement, imaginative play with hands-on and sensory exploration.

ALL THIS AND LOTS OF FUN!
